

VENTE OCCASION

privilege 23m alliaura marine 745

2 550 000 USD HT

DESCRIPTION

INVENTORY

More details on the survey report

The rig is found free of structural defects. A rigging inspection report issued in April 2024 by Turbulence Sails in Grenada confirms the structural integrity of the rig which is considered sound and safe.

HOUSE BATTERIES

8 X 12V lithium LIFEP04 batteries "Redodo" for an estimated capacity of 100 Ah per battery, plus 2 "Lifeline" 8D estimated @220Ah emergency batteries. Terminals are found clean, properly tight and in good condition. Batteries are properly secured in dedicated boxes, with SS holding beams (under saloon flooring).

ENGINE BATTERIES

2 X 12V generic batteries, 170 Ah each.

BOW THRUSTER BATTERIES

4 X 12V AGM batteries (2 per thruster in each forward peak), with each a dedicated "Mastervolt" 24V/25A battery charger.

Power distribution System

"Maretron" computerized monitoring system, with 3 displays (saloon, crew mess and flybridge). The system is up to date and fully operational

CHARGING

2 alternators 12V/24V (on each engine).
