Swiss cat 55'

2 470 000 € HT

DESCRIPTION

CAP MED BOAT & YACHT CONSULTING is pleased to present for sale this magnificent Swiss Cat 55 catamaran, a new semi-custom model designed by French naval architect François PERUS of Yacht Design Collective and built by Italian manufacturer Top Marine Costruzione. A fast blue-water cruising boat.

Main features:

Daggerboards for better upwind ability, less wetted surface and greater safety. Two steering wheels for better visibility under sail and for maneuvering in tight spaces.

Luxurious, warm wood interior with balsa core.

Only three female molds were used for the entire hull, deck and roof.

After thorough finite element analysis, the hull lamination consists of an E-glass skin, a SAN-based Gurit Corecell M foam core, epoxy resin, post-cure, including primary bulkheads in laminated carbon fiber prior to demolding. Carbon fiber is used in high-load areas, including longitudinal spars, spars and bows, daggerboard junctions and front crossmembers.
