komorebi yachts 148'

25 000 000 € HT

DESCRIPTION

PAJOT YACHTS SELECTION - Komorebi 148' / 45 m

This one-of-a-kind yacht that you are about to discover is the perfect synergy between long range ocean cruising and easy day sailing.

As a former Olympic medalist and America's Cup multi-challenger skipper, with 20 years of professional yacht broker experience, I have come to the conclusion that the majority of yacht owners choose motor yachts over sailing vessels although they still have a tremendous passion for sailing.

The common obstacles are:

- Complex sailing expertise needed
- Discomfort from heeling at sea
- Low maneuverability and speed

We have put together one of the best international French naval architects, Group VPLP and engineers to provide a perfect yacht able to meet those major obstacles and address the future generation of 42m long, world owner market.

The unique and advanced KOMOREBI – which stands for « Well Being » in Japanese - will provide the best yachting experience thanks to :

- Stabilized monohull no heel no roll
- Easy to sail, entirely automated
- Hybrid solution, energy efficient, and low consumption
- Noise-free and low emission

This low impact Yacht capable to cruise the globe; As well with an America's Cup inspired rig, with a patented mast sail, "Ocean Wings" for a 50% increase in speed compare to a normal sail.

We are now in the process of entering prototype production and are looking for enthusiastic and visionary partners, to build the green technology yacht for future
